To the journey and the sense of exploration which drives us all on.

# CHAPTER 1

What follows here in this book is not the commanding or use of any individual devil or demon. What follows is the commanding of many devils and demons: an army of these entities. It may seem unlikely that commanding so many entities is possible when in fact it isn't even that

complicated. What is important is that the devils and other demonic entities are commanded exactly as set out in this book. But also realise that devils and demons are in fact all created with one flaw and this is that using the correct methods they can be commanded. It is something which has been said that one should never raise up more demons or devils than one can subdue: the suggestion being that someone should only ever raise one devil or demon at the most. This however isn't the S Rob way and I realise that with care and nerve many devils and demons can be safely commanded. The one fundamental of the S Rob way of dealing with devils and demons is that there is no such thing as overkill: the more the merrier. Yes it is true that we need to know what we are doing: this is why this book exists. But also confidence is required too

and this means that sometimes the complete nonbeliever can find this magic easier than those which have been taught the many overcautious methods of occultism.

However the method I show you is completely safe, and will not do you any harm. I think that in fact an occultist you should have some idea as to how raise and command an army of entities. The main benefit of utilising an army of entities is that they have much greater power than they would alone. But also they are more powerful together. The reason for this is actually quite simple and it has been said that the relative strength of an army is its number of soldiers by the square of the killing rate: assuming there are no talks etc and there simply are soldiers. This same equation could be used for an army of devils which would

mean that two devils working together would have the strength of four, and three devils working together would have the strength of nine and it is therefore easy to see the value of devils working together. The best way to proceed now is simply to move onto the method of using the army of devils.

This is your promise and by this and to this you are bonded.

I hope that this magic spell for the army of devils is one which you realise will help you to gain power, all types of power. The magic spell can be cast whenever you want and actually the more you put into it, the more potent it will be: the more will power you say it with, and the more you want it to work the more power it has. However this magic spell could be cast daily if you wanted it to. But for those who think they do not seek power they

should bear in mind that usually when they want money, or success, or stuff what they really seek is power or the appearance of it. Power is very important to us and we need to realise that power isn't of itself evil: not that that isn't your choice: but that it is necessary for us for whatever we want to do. Power gives us the ability to make things better for ourselves and others too if we want to.

But there is more to life than just getting power, there also are defending what you have too. We all need protection and after all just think what great protection an army of devils would provide for you. The army of devils are actually very easy to gain protection from and think of yourself as gaining protection from these entities, as if you are surrounded by an army: which essentially you are. Devils are very powerful entities and they are

fallen angels, whereas demons were never angels at all and are less powerful. It is easy to understand why people can feel themselves losing power over their life when they may be attacked on all sides. This brings me to another point and that is that as the army of devils may also move through solid objects then instead of thinking of it as a human army on a flat sheet, we may think of them as being able to defend and attack by flying above and below and this would theoretically increase their power so that the equation representing their power would not be as a human army killing rate multiplied by the square of the number of soldiers it would instead be killing rate multiplied by the cube of the number of the soldiers. This means that their abilities increase their power greatly.

**Protection with the army of devils**

# CHAPTER 2

The army of devils which you can command can also bring you other things too. It is easy to think of an army of devils as being merely aggressive, but actually it can be better to think of them as effective. The main thing is to realise that they could just as easily be thought of as being an

organisation or even a corporation and in many ways this is a good way to see devils when organised because devils and Hell aren't just about fighting and there are many other aspects too and so in some ways they are more like a corporation. This is true insomuch as devils are also about greed, marketing and many other things and like corporations it is difficult to think of something which they are not involved in at some level. This also is something which you need to become aware of, and this is that devils as you think of them are not just non thinking entities and their use as your army or servants is made much more useful and potent because they have the ability to think. But of course this means that these devils must be commanded a certain way. I will also say that the say that money is the root of all evil and while this

isn’t completely true: there is pride and many other things too, wealth is important to us. This is why when people say this what they are actually talking about is the human condition and why money and wealth is important to us.

Money and wealth and necessary on Earth because we control so much of Earth, and because we need each other and it is a very important way that we communicate and cooperate upon certain level and ways. It enables us to share and allocate resources and so money opens up many different opportunities. I will therefore now show you a magic spell using the army of devils to help you gain in wealth and money. They will open up opportunities, attract wealth to you in many different ways but this means that when wealth comes near you must take the opportunities,

because if you do not, then they will have done their part. However this is not to say that you should not decide what to do because this of course is what we must always do.

**The army of devils commanded to attract wealth and money**

Oh devils of the first sphere oh hear me,

Lucifer king of Hell hear my plea and help me gain wealth,

But I also would like to show you that the army of devils can also be used for you to gain cunning because the ability to be cunning and to think yourself out of situations, cunning is that human ability to outwit people, but also the ability to mentally hunt those around us, and to see others as prey but in an intelligent way and this is one ability which the army of devils can give us and so I will show you how to gain this now. But you will not lose yourself and you will always remain in charge and they will merely help you to survive and to get what you want.

So it is and will be,

This is your promise and by this and to this you are bonded.

# CHAPTER 3

I do not want you to lose sight of the fact that the army of devils is in fact an army and so I will move onto more army like magick. What I will show you how to get the army of devils to protect a particular geographical area: you will need to be

there to have them do this. I do know that getting the army of devils to be in a particular place and to protect it and should not be underestimated in terms of power which is also more important because the army of devils can be violent and ruthless in protecting an area. But what we are going to use it for it to protect a neighbourhood or area against bad things from being done by people. This isn't easy for some people to appreciate. Think of it this way in terms of what could happen if the army of devils come up against enough bad people in the area. You could find that there are many strange deaths and that many people who are law breakers, could find their lives come to an abrupt end even those who you know of didn't realise you did know. People who are quite innocent may in fact see some signs of the army of

devils although many people may in fact, be saved by them. This may sound far, fetched and even the stuff of horror movies but this is what the army of devils could do and what they will do in some areas where they are used.

But to make this work it is also good to have the army of devils command to be said by many people and remember that the magic should be renewed every month. But the more people you can get to say it the more powerful and potent it will be. But also to cover an entire area: depending on its size: you will want to say the entire command several times and even say the commanding spell walking around. But this power has the ability to alter places and to make them better. It also is good if the fact that the commanding spell was used leaks out: which it will if you use many people to

say it. So keep saying the commanding spell, and realise that it has great power. But getting other to say it isn't necessary because the magic works well even if only one person says it. But you must make the magic work through your will and you must will the magic to work. But here is the magic to protect an area and to smite down any bad people and to stop evil deeds.

**The army of devils commanded to defend an area, attack bad people and evil deeds**

Oh devils of the first sphere oh hear me,

# CHAPTER 4

I will now show you how the army of devils can be utilised for less obvious things. Sometimes what we need in life to fulfil our goals isn't money or success, but followers: people who will join our cause. It isn't an easy thing to get people who

want to join a cause we have no matter how important it should be to them and getting the first followers is the most difficult because the more followers you have the easier it is to gain more and word of mouth starts to take effect as well as your goals looking better simply because of there being more followers. But do not think that the followers for a cause have to be following something political because almost any type of cause can be helped. But also this stage helps you because in order for you to get on you must have some idea of what your target is and this it, self will help you become successful because it is more than very difficult to hit a target when you do not have a target to hit. This is why this is actually a stage as much as gaining magical help. But also it also is best if you can think of any other methods of

achieving your goals and getting followers because these too can also be utilised by you. But try to get a mental grasp of what you want and remember followers does not just means social media I mean real followers who will be there for you to the ends of the Earth, or at the very least will be of use to you in achieving your goals and targets.

**Commanding the army of devils to gain more followers for your cause**

Followers come to me,

The army of devils at my command

Bring power to me,

Make me powerful and have people to command,

So it is and will be,

This is your promise and by this and to this you are bonded.

The magick which I have showed you will bring followers to you, and these people will to an extent obey your commands as long as you ask them to do things which are in line with their morality. But

also this will help you make change happen because it is easier to get change: whether just for your purpose or others: if you are not truly alone. There is strength in numbers, but the magick makes you the leader and this is where true power lies. Much of the time when someone wants something: or a group do: people work and apply pressure to get rid of some old thinking, ways of doing things or people. But when this is done some people are replaced by people who aren't too different from those they replace and this is because these people knew that sometimes if power is only what you want then being in charge can mean more than what cause you have, because only once you have gotten anyone who was in charge out of the way can you take over and get what they really want. Power is sometimes all that people want, but for this magick

I have shown you using the army of Devils you must have some type of goal. But having a dream is something which you must try to fulfil.

# CHAPTER 5

The army of devils which you have learnt to use also has other uses too, and one use which is perhaps the most ruthless of all is possession. But the reader should know that it is best not to possess oneself with the army of devils but instead to possess another person, this chosen person should be an enemy or rival. But be warned that a person possessed with the army of devils will be in a state which would be considered irreversible. The truth is that being possessed by this many devils will put a person into a state which would mean that even if an exorcist could be found which is very difficult it would take so many repeated exorcisms that it

would take the entire duration of their lifetime to get free of them. Plus being possessed means losing our personality and the body being controlled by the possessing spirit or spirits: in this case the entire army of devils. But doing magic like this does not have to be difficult as long as you follow the wording exactly. But also you should have a person in mind who you know and whose name you know: it also is a good idea to have a picture of this person, with only this person on. But also the possession needs to occur so that the person will act in your best interests and not against them, because after all the person will be possessed by a demonic army of spirits from the deepest reaches of Hell itself. Therefore to gain this power, simply proceed as follows. But take this last warning that you need to be very sure that

you want to do this and to know the target person well.

**Possessing an enemy with the army of devils**

Oh devils of the first sphere oh hear me,

Lucifer king of Hell hear my plea and possess state name of chosen person,

Help me oh Lucifer,

Beelzebub help me,

I command you,

Possess state name of chosen person,

Work to help me walk the path to power,

Leviathan I command you,

Help me,

Possess state name of chosen person,

Send them to me,

Asmodeus by at my command,

I need your power,

Possess state name of chosen person,

Berith I command you,

Possess state name of chosen person,

Make me powerful,

Astaroth I command you,

Possess state name of chosen person,

Let this person act only for my benefit,

Verrine I command you,

You are my servant,

Possess state name of chosen person,

Gressil by my servant,

I command you,

Possess state name of chosen person,

Give me power,

Sonneillon I command you,

Possess state name of chosen person,

Oh devils of the second sphere hear my plea,

Possess state name of chosen person,

Carreau help me,

I command you,

Possess state name of chosen person,

Let them act only for me and in my best interests,

Carnivale I command you,

Possess state name of chosen person,

Oeillet by at my command,

Possess state name of chosen person,

Rosier I command you,

Possess state name of chosen person,

Make me powerful,

Let them act only for me and my benefit,

Belias I command you,

Possess state name of chosen person,

Devils of the third sphere,

Possess state name of chosen person,

Olivier I command you,

Possess state name of chosen person,

Luvart help me,

I command you,

Possess state name of chosen person,

Verrier I command you,

Help me,

Possess state name of chosen person,

The army of devils at my command

Let them act for my benefit alone,

So it is and will be,

This is your promise and by this and to this you are bonded.

What you should remember about the magic you have just been shown is that there are signs of a person being possessed which you can look for and the more obvious ones are, a complete change of personality, speaking different languages they did not know, speaking in tongues: speaking gibberish: and of course they will be acting in your best interests. This magick makes the person who

before this was within this body simply barely existing and of course it does mean that their souls even if it of the whitest nature could be dragged to Hell anyway. The magick is of the darkest because although they will be alive they will be in a living torture, and quite helpless and so be careful who you use it on or else someone will use it on you: which believe me is a very bad thing. Don't imagine that being possessed is at all good or even interesting, it is perhaps the worst thing that can occur to a person: although humans such as us may think up something worse eventually. So use the knowledge with care and know that many people will not use it at all but seeing the spell and how it works will help you immensely to understand occultist and for this reason alone it is useful and educational. But now you know that the army of

devils although so many can be forced into even the smallest of spaces, and so they could dance on the head of a pin and still be able to destroy a battalion of the strongest men.

# CHAPTER 6

There are times when we may lose sight of what we really want and to instead want this army of

devils to run amok and yet this is possible and also something I will teach you. The reason I teach you is that there are many times when such paranormal creatures walk abroad and yet people never think that these entities could be walking around because someone willed it to be so. But also this book is not one of morality but instead of tools and so I will show you what others would not: how to release the army of devils onto an area. Do not be afraid because as long as you do not choose your area then it should be fine for you. Don't get me wrong some people there are a price to be paid for all our evil deeds and this may be an evil deed. However it could be that you are going to release these beings in an area you already believe is full of worshippers of the devil: I am not and this book is not about worshipping but commanding: this

could mean that once the army is released they change their allegiances, or be very happy that you have released them and done them so big a favour. But some people will only know the truth about their own evil when faced by an army of devils. But we have power over these devils and so we can make it so that they can only attack those that are themselves largely evil. I will therefore show you how to release the army of devils into an area to attack the mostly evil.

**Releasing the army of devils into an area to attack the mostly evil**

(To do this magick you will require some salt and some water and a container)

(Say what follows above the salt)

Go into this salt and when released attack the mostly evil,

Luvart help me,

I command you,

Go into this salt and when released attack the mostly evil,

Verrier I command you,

Go into this salt and when released attack the mostly evil,

(Now put the salt in the water)

So it is and will be.

(You should now take the water and put it into some type of container and to put the army of devils onto an area simply go to the place and sprinkle the water over the area. You will be

surprised how large an area you can cover in this way.)

Although it is true that you have learnt how to use the army of devils against an area and those bad people within it, it also is true that sometimes we may just want to send them out so that they may run amok on anyone and with no means of protection at all for anyone and so this more hardcore version is what I now show to you. The method is similar to that which I have already shown to you, but it is more violent and attacking.

**Releasing the army of devils into an area to attack everyone**

(To do this magick you will require some salt and some water and a container)

(Say what follows above the salt)

Oh devils of the first sphere oh hear me,

Lucifer king of Hell hear my plea go into this salt and when released attack everyone but me,

Help me oh Lucifer,

(Now put the salt in the water)

So it is and will be.

(You should now take the water and put it into some type of container and to put the army of devils onto an area simply sprinkle the water. You will be surprised how large an area you can cover in this way.)

# CHAPTER 7

There are times when what we may require may be more akin to a talisman, some magical item which can help us magically without us having to cast any spells or do, anything more than simply make the talisman. A very potent and powerful form of talisman can be made with a bottle, and this is what I will teach you to make now. But it should not be forgotten that magical beings such as devils and demons may occupy more than one space at the same time. This is therefore the reason, why we can make such an item while also commanding them in a different way. It is true that there is a way of getting the help of the army of devils using a bottle and also you will need some paper and a pen. These items help to empower the bottle and

bind the army of devils to the bottle ad commanding them. But it should be understood that what we are doing is simply to gain help from them and that anyone who possesses the bottle will have their help. I therefore will show you how to bottle the army of devils so they will protect.

**Bottling the army of devils to gain protection**

(You will need a bottle and its cork or screw top, you should then write what follows onto paper and then place it into the bottle)

Oh devils of the first sphere oh hear me,

Lucifer king of Hell hear my plea protect,

Help me oh Lucifer,

Beelzebub help me,

I command you,

Protect,

Give protection,

Leviathan I command you,

Help me,

Give your protection,

Protect,

Asmodeus by at my command,

I need your strength,

Protect,

Berith I command you,

I command you protect the owner of the bottle,

Do what is necessary to give strength to the owner of the bottle this message is within,

Make this person powerful,

Astaroth I command you,

Protect,

Protection,

Verrine I command you,

You are a bodyguard,

Send your protection,

Power to protect,

Gressil by a bodyguard,

I command you,

Send power to the owner of the bottle,

Give protection,

Sonneillon I command you,

Protect,

And send power,

Oh devils of the second sphere hear my plea,

Protect,

Carreau help me,

I command you,

Give your protection,

Carnivale I command you,

Protect me,

Give your power,

Protect,

Oeillet by at my command,

Protection,

Send it to me the owner of the bottle,

Rosier I command you,

I command you to give strength,

Do what is necessary to protect,

Make the owner strong.

Belias I command you,

Send protection through the bottle,

Devils of the third sphere,

Send your power,

Olivier I command you,

Be a bodyguard,

And send power,

Luvart help,

I command you,

To give me strength,

By a bodyguard,

Verrier I command you,

Help me,

Give your protection,

Protect,

The army of devils at my command

Bring power,

Make the bottle owner strong,

So it is and will be,

This is your promise and by this and to this you are bonded.

You have now learned some simple bottle magick and how you can use a bottle and a note to bind an army of entities to the bottle. The bottle may take a day to get to full power or if you want it to work straight away then put some stones or a handful of soil into the bottle as well. However you should

seal up the bottle and not open the top, because it is important that the command and the note which binds the army is within the bottle because to release them would be dangerous and if you do need to get rid of the bottle then you should tear up the note inside the bottle; get some holy water and sprinkle it over the area and this will possibly rid yourself of them: if not then repeat sprinkling the holy water again. But most of all what I hope is that this book has helped you to understand the magick you have within you, and the true power of humanity. It is quite something to command an army of devils for the first time and yet this book has made doing this simple. But if you can command an army of devils just think what you could do if you were to have other knowledge and the power of humanity. Magick helps people and just because

this magick uses devils does not mean it cannot help people and in fact even be used for good. We choose what we think is correct for them to do and when we should use the magick. We should always remember that we are the master of the army of devils and not the servant because it is easy over time to forget what this magick is actually about. With your new found power in mind, use it when you think appropriate and have a stronger better life.
